

INVITATION LETTER

Dear Colleagues,

The European Federation for Conservative Dentistry (EFCD) and the Turkish Society of Restorative Dentistry (RDD) have the honor and pride to organize together the most important Conservative Dentistry Congress of Europe, the 10th ConsEuro.

This event was to be held in Antalya Turkey between 22nd and 24th of April 2021. Until a few months ago, we were hoping that it would be in the form of a physical conference. However, as the world is facing a very difficult period of time with COVID-19 and many European countries are partially in lockdown with travel restrictions, it seemed, to the Executive Board of the EFCD, unrealistic to hold a physical 'face-to-face' Congress at that time.

We have therefore decided to postpone the 'physical' ConsEuro Conference until April 2022 with provisional dates of 21st to the 23rd of April and have decided instead, to present you a 'Virtual' ConsEuro 2021 congress. The topic of this virtual event is "Dentistry 2.0- New technologies and materials in today's dentistry". For this exciting topic and exceptional meeting, EFCD and RDD have invited 12 prestigious researchers and experts from all over Europe to present their research in the field of Conservative Dentistry, with a special focus on new technologies, materials and their applications.

We are convinced that this event will promote international exchange on the latest technologies, innovative materials and concepts offering a unique opportunity to discuss all these in the comfort of your house or office.

We are delighted to welcome you to our virtual congress to share this exciting and inspiring program.

Sincerely yours

Prof. Dr. L. Şebnem Türkün
President of EFCD

Prof. Dr. Esra Can
President of RDD

ABSTRACT SUBMISSION

During the 10th Virtual ConsEuro 2021 Congress, scientists and researchers throughout Europe will have the opportunity to present, discuss and critique their investigation in a virtual platform. If you are involved in dental research, we urge you to submit an abstract for consideration for poster presentation.

Online abstract submission system will be available and open until **midnight 24:00 (CET) on 08 March 2021.**

Abstracts will be sent to the Scientific Committee Members for a blind evaluation process. Authors will receive confirmation of acceptance of their works by 15 March 2021.

Online Abstract System Procedure

- Authors shall open an account on the online abstract system with a username and a password
- **Each participant can submit only one abstract as a presenter** but can be a co-author in more than one submission.
- Please do not forget to authorize your abstract by **submitting** it to the Scientific Committee. Only authorized abstracts will be evaluated. Abstracts **not submitted** but only saved by the authors will not be evaluated.

Abstract Submission Guidelines

- All accepted abstracts will be highlighted in the system and authors will be able to monitor the actual status of their studies.
- Abstracts must describe research or clinical cases that has/have not been published or presented already and has/have not been submitted to another meeting at the time of submission. Only original research, systematic reviews and clinical cases will be accepted. Abstracts about planned studies as well as nonsystematic reviews will be rejected.
- Presenters of the accepted abstracts should register to the Congress until the deadline for Early Bird Fees which is **19 March 2021.**
- The presentation at the congress must conform to the data in the published abstract. If a mistake is discovered after submission, please contact the editor in chief of Clinical Oral Investigations Prof. M. Hannig immediately to discuss revision before publication. If revision is not possible anymore before publication, the poster should fully explain the reason for any deviations from the abstract, either in the results or in the conclusions.
- Acceptance of presentation is subject to the decision of the Scientific Committee only.

Abstract Submission Rules

- Abstract texts (without title, authors and affiliations but with acknowledgements) must not exceed 300 words. Diagrams, figures and tables are not allowed in the abstract.
- Abstract title must be informative and maximum 13 words.
- Name, surname, title, institution, city, country and contact details of the authors shall be stated clearly.
- Presenting author shall be stated in the system and underlined in the abstract.
- Abstract body shall not include any indication about the authors and their personal details.
- The presenter should choose if the abstract is for Research Abstracts or Case reports at the beginning of the submission.

The text of the abstract should be arranged as per the format below and each section must begin with the section heading printed in bold as follows.

FOR RESEARCH ABSTARCTS:

Aim: Clearly state the aim and hypotheses of your research.

Materials and Methods: Please describe methodology so that readers understand your approach. In experimental studies please mention number of specimens/participants/study groups.

Results: Present data and statistical analysis with concrete numbers such as means and standard deviations. Avoid vague statements as abstracts with vague presentation of data will be rejected.

Conclusion: Must be based on the described results and should be explicit. Please acknowledge all sources of funding at the end of the abstract.

FOR CASE REPORTS:

Aim: Please describe the baseline situation (diagnosis), the indication and the aim of the treatment.

Materials and Methods: Please describe the treatment, the used materials and methods.

Results: Please describe the clinical outcomes.

Discussion: Please evaluate the treatment outcomes and critically discuss the treatment methodology.

Please acknowledge all sources of funding at the end of the abstract.
